

# B2B – take-back concept - note on the return of old devices

January 2023

According to the EU Directive 2002/96/EC of the European Parliament and the EU Council for old electrical devices (Waste Electrical and Electronic Equipment - WEEE) and the new version of the EU Directive, 2012/19/EU, there is an obligation to collect old electrical devices, to treat them in accordance to regulations, to dispose them and to finance the procedures.

Electrical and electronic equipment that has become waste is referred to as old device. Owners of old devices must collect them separately from unsorted municipal waste. In particular, old devices do not belong in household waste, but in special collection and return systems.

According to the Electrical and Electronic Equipment Act ElektroG (§7a ElektroG), which applies in Germany, every manufacturer is obliged to create a reasonable possibility for the return of old devices.

Help us to dispose old electronic devices in an environmentally friendly manner. Valuable raw materials can be recovered through professional, environmentally friendly recycling. This protects our environment and existing resources.

We offer you the option of returning your old device to us.

The return is at the expense of the sender. The sender does not pay any costs for the disposal of old devices.

For further clarification of the return, please contact us.

## **Contact details of the manufacturer:**

VacuTec Messtechnik GmbH  
Dornblüthstraße 14a  
01277 Dresden

Phone           0351 31724-11  
Fax               0351 31724-68  
E-Mail          service@vacutec-gmbh.de  
Web             [www.vacutec-gmbh.de](http://www.vacutec-gmbh.de)

Registration WEEE-Reg.-No. DE 93860459

The symbol of the crossed-out wheeled bin means that this electrical or electronic device must not be disposed with household waste at the end of its service life, but must be taken to separate collection by the end user.

Please note:

- Batteries/accumulators that are not permanently integrated in the electric device must be removed before disposal and disposed separately.
- If applicable, the deletion of personal data on the old devices must be carried out independently by the end user before disposal.
